
QUALITY POLICY

We create value for customers, employees and owners through:

- **External Focus:** Understand and validate new market and competitive trends. Develop business processes to meet customer requirements. Bring innovative solutions to market.
- **Continual Improvement:** Capture, institutionalize, and share learnings. Adopt best practices to improve performance. Select projects that close the highest value gaps in the short, medium and long-term horizons.
- **Data-Driven Approach:** Apply appropriate statistical and analytical tools using facts and data to make decisions, select projects, and improve results.
- **Reliability:** Provide consistent products and services to meet our customers' needs. Invest to ensure reliable operations.
- **Leadership:** Build a shared vision, ensure alignment, and create a motivating work environment.
